

UE SYSTEMS

“ELECTRICAL MASTER CLASS”

USING ULTRASOUND FOR DETECTING ELECTRICAL PARTIAL DISCHARGE

Our electrical master class follows the guidelines set out by UEQ-TC-1A and the ISO:18436-8/18436-3 as the criteria for our standards. UE Systems is proud to present a focused two-days masterclass specifically for electrical inspections on your assets. It's a class for everyone!

The Objectives of the class are as follows:

Your company will benefit from the class by reducing downtime, saving money, and improving safety conditions. In the modules, you will learn how to use your ultrasonic instruments for electrical inspection, detecting corona, tracking and arcing, mechanical looseness and managing and analysing using real-world data.

The course will be taught through a mixture of classroom theory along with practical exercises. Culminating in a short multiple choice final exam.

Upon completion of the course, the student will gain a certificate of completion by UE Systems.

Details of the class:

Date: 14 and 15th of May 2024

Date & Time: 09:00-16:00

Location: Selangor, Malaysia

Course Fee: USD650 per pax
